

Engage, Empower and Enthral with Primaxis Consultancy Services.

One of the biggest challenges businesses face with the implementation of SharePoint and its many features is staff engagement and utilisation. Primaxis can help you deliver efficiencies through our consultancy services and also bridge the gap between implementation and adoption.

Primaxis is an Australian Microsoft® SharePoint® consulting partner, who assist businesses to harness the power of their Microsoft® SharePoint® online or Microsoft® SharePoint® on-premise environments to improve the way their business communicates, collaborates and shares information.

Custom Development

- Move current applications into Microsoft® SharePoint
- Build new bespoke applications on Microsoft® SharePoint® that deliver ROI and engage your users
- Skillset includes modern SharePoint® development standards, tools and applications.

Company Intranet

- Single page Corporate Intranet templates to share essential information with your workforce.
- Multiple page Corporate Intranet templates to cater for Divisions and Departments with News publishing and HR subsites.
- Bespoke Intranets with your preferred branding and look and feel. We can supply UX services along with our Consulting services to ensure the best user experience possible.
- Enhance your Intranet experience with any or all of the following features:
 - News slider and roll ups to present the most up to date information to staff
 - Quick Links to key applications
 - HR policies and procedures portal
 - Corporate Directory and Calendar

eMail and User Migration

- Smooth transition of user accounts into Microsoft® Exchange or Office 365 from Other eMail services such as IBM® Notes and Domino.
- Enable co-existence between IBM® Notes and Domino and Microsoft® Exchange or Office 365

Application Integration and Migration

- Business Connectivity Services for a seamless hybrid environment
- Development Services to transition applications from other technologies to Office 365 and SharePoint®
- Move applications to Microsoft® Azure through our cloud services packages

Support Services

- 24 x 7 Support of SharePoint® and Office 365 Environments
- 24 x 7 Support of Microsoft® SharePoint® Intranets and Applications
- Weekly Support blocks of hours to suit your budget
- Packaged Support blocks of hours for ad-hoc support

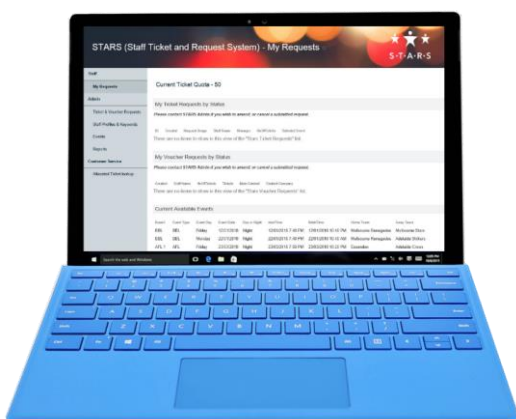

Case Study: Melbourne Stadiums Ltd (Etihad Stadium)

Critical Needs

- Replacing the legacy database in IBM® Notes®
- Deliver a solution in a technology of choice, Office 365 and SharePoint® Online, to maximise Melbourne Stadiums Ltd (MSL)'s Office 365 investment.
- Develop a new application without the loss of functionality in a cost effective robust way, enabling ease of administration and future development.

Success Highlights

- Delivered Staff Tickets and Request System (STARS), in SharePoint® online as a part of Melbourne Stadiums Ltd (MSL)'s Office365 investment.
- Increased IT and administration efficiency & control by maximising the power of the SharePoint® online features and applications.
- Achieved license savings and removal of legacy technology enabling agile movement as technology advances.

STARS application for Melbourne Stadiums Ltd

Originally a IBM® Notes® database, Primaxis were able to re-design this application in SharePoint® which saved the need for IBM® Domino licensing as well as single sign on (SSO) via Active Directory and seamless integration within their intranet.

"The end result looks fantastic and has proven popular with staff and management"

Geoff Hall, Information Technology Manager
